# Kamalakar Rao Balla

UI/UX Designer

kamalballa79@gmail.com | +91 7036910130 | Bengaluru | Portfolio | LinkedIn

## About me

UI/UX Designer with a background in spatial experience design, bringing systems thinking and visual clarity into digital products. I design intuitive, user-centered interfaces by balancing functionality, structure, and human behavior. With strengths in research, interaction design, and visual storytelling, I transform complex problems into clear, engaging experiences.

## Skills

- **Software's**: Figma, Miro, Whimsical, AutoCAD, Adobe Illustrator, Sketchup, Revit, Lumion, Enscape, Twin motion.
- **UX Research Methods**: User Research, Ethnography, Affinity Mapping, Usability Testing, User Journey Maps, Competitive Analysis, Stakeholder Interviews, Card Sorting, Empathy Mapping.
- **UX/UI Design Skills & Processes:** User-Centered Design, Design Thinking, Interaction Design, Information Architecture, User Flow Creation, Site Mapping, Wireframing, Low-Fidelity Prototyping, High-Fidelity Prototyping, Responsive Design.
- **Visualization Skills**: KPI Visualization, Infographic Design, Visual Design, Information Design, Layout Composition, Typography Systems, Color Systems, 3D visualization, 3D rendering, Photography and Sketching.

## Work Experience

**UI/UX Design Intern | Kritter Software Technology | Bengaluru** ***December 2025 - Present***

- Contributed to the design of Edupull's mobile CRM for education consultants, conducting user interviews, stakeholder discussions, and competitive analysis to identify workflow gaps in lead tracking, follow-ups, and student lifecycle management. Designed end-to-end user flows, information architecture, and site maps for admin and consultant dashboards to streamline processes and reduce navigation complexity.
- Created low- and high-fidelity wireframes and interactive prototypes in Figma, along with KPI-driven dashboard visualizations to improve pipeline visibility, enhance data readability, and support data-driven decision-making.

**Design Intern | Tata Consultancy Services | Bengaluru** ***June 2025 - August 2025***

- Executed trend analysis and strategic forecasting to identify emerging shifts in workforce, workplace, and organizational culture.
- Developed actionable design strategies for a live project of the Tata Group's new Information Research Centers, translating complex research into human-centered spatial solutions by contributing & collaborating with cross-functional teams to deliver innovative workplace solutions.

**Spatial Experience Designer | Studio D+B | Hyderabad** ***2020 - 2024***

- Led the design and execution of 25+ residential and commercial spatial projects, approaching built environments as holistic user experiences by integrating functionality, human behavior, and spatial storytelling.
- Translated client requirements and user needs into experiential spatial solutions through concept development, journey mapping, and iterative design processes, ensuring clarity between user intent and spatial outcomes.

## Education

**Master of Design (Experience Design)** ***2024 - August 2026***

National Institute of Fashion Technology | Bengaluru

**Bachelor of Architecture** ***August 2020***

Jawaharlal Nehru Architecture and Fine arts University | Hyderabad
